

# Limited Warranty / Acoustik collection

## PLEASE READ BEFORE THE INSTALLATION

Environmental conditions such as exposure to light and fluctuation in temperature and humidity, will greatly affect product performance from the initial installation throughout its life. Refer to our installation instructions and warranty for proper steps to a successful install and ensure the lifelong performance of your Finium wall.

Finium guarantees the conformity of its products when they are installed according to Finium's installation instructions and are maintained in an environment where ambient humidity ranges from 35% to 55% before, during and after the installation.

Solid wood and wood veneer are susceptible to show movement when ambient humidity level is below 35% or above 55%.

Finium can not be held responsible for site conditions and products that are not installed per our instructions.

Finium guarantees the wall panels against manufacturing defects. If, upon opening a box a panel is defective or fails to meet Finium quality standard, the consumer may return the panel to the original dealer for a replacement.

## 2 - Year Limited Structural Warranty

Finium guarantees the wall panel, in their original condition, shall be free from manufacturing defects for the period of 5 years from the date of the original purchase.

This product is flammable and its use near an important heating source is not recommended. Please check the latest construction regulations in your area. In addition, the wood will lose its humidity which can cause cupping and delamination.

Given the nature of wood, it is possible that Finium wall panels may vary in colour variations from one panel to the next and from one production lot to the next. We recommend that you lay out the panels on the wall based on your personal colour preferences. Such variations may not be claimed under warranty.

By accepting and installing Finium wall panels, you will be deemed to have accepted the warranty terms and conditions set forth.
